You will not go wrong picking these guys to repair your vehicle. I did a lot of research before selecting them and let me tell you, they didn't disappoint. I took two vehicle and was very pleased with their work. I toured their shop and got a good feel of the all the guys, all was very respectful and answered all the questions I had. I was in contact w/Pablo the most and he's my guy, we formed a very professional relationship. Easy to contact and will answer your call/text right away. Choose Dentpicks!

When the hail storms hit earlier this year, simply didn't bother to fix my car. Paul knocked on my door and told me how great they were. Weeks later I decided to allow them to repair my car from hail damage and I was WOWED! My car looks amazing after they repaired it. They took care of my deductible and gave me a loaner car in the mean time. They are GREAT at what they do and make everything so easy for you as a customer. I didn't have to do anything but hand them my keys and they took care of the rest. I highly recommend them!!!

After the hail storm, I've had the opportunity to experience several different PDR companies via my roommates and neighbors. Dent Picks was by far the best overall experience from beginning to the end. My f-150 looks better than new with their great detailing and after expecting the repairs under appropriate lighting, I couldn't find a single wobble anywhere on the body. The same can't be said for my roommate's identical truck. If I ever need repairs again, I'm going here!

Rocco and V were great. Not even three months after purchasing a brand new 2021 GMC truck, we got hit with hail pretty bad. The team at DentPicks made it perfect again, just as if nothing had happened. Great to work with. Good communication. Their attention to detail was awesome. I hope I don't have to, but if I do I will definitely use them again in the future.

V and his shop are wonderful. Very professional, and dedicated to doing the right thing for the customer.

I had a complicated issue with my insurance company that took longer than usual to resolve. Dent picks was there to make sure it got done right, without rushing, and helped me with my insurance company issues. They made sure I had a car for the time, and kept my car secure.

They do what's right for the customer, and hold to their word. And my car looks amazing.

Found DentPicks on my Facebook Feed, so that made me a bit skeptical. I made an appointment and met with Vytas. I showed him what I needed fixed and he pointed out another ding that I had not even noticed. He quoted me a price that was difficult to believe, so I was once again skeptical. He asked if I needed a loaner to buzz around while they did the work, I had a ride coming, but that was a super nice touch. He called a few hours later and told me my car was ready. To my surprise, the car looked spectacular. Not only did they make the dents disappear, but they detailed my car. Amazing work, fantastic customer service and great prices. I will be back as there are more cars and more dents, but I am so happy to have found this place, they are awesome!

Dentpicks did an excellent job. They repaired the hail damage perfectly on both of my cars. They picked them up one at a time, offered me a rental, detailed them both, and didn't charge me a penny out of pocket. Communication was prompt and accurate throughout the process. I couldn't be happier.

exceptional concern for detail and perfection. This is the definitive Auto Body Shop - excellent craftsmanship at prices that are reasonable, competitive and fair. You will see that this review does not stand alone - Dent Picks is simply the best.

Vytas is amazing! I went there for a ding on my mustang and then He showed me the hail repair that was done previously was poorly done and gave me a great price to fix everything. I am very satisfied with the results and highly recommend him and his team!

Worked with Rocco. Not only did they allow me to switch out the rental car for one like the was more comfortable, they also replaced my windshield with one that has tint at the top. Which I didn't has previously. Great job Will definitely tell friends and family

They did an excellent job. I can't even see where the dent was and I know where it was. They were fast with a great price. I will use them again.

I was hit with hail damage and Rocco with Dent-Picks reached out with a personal note and business card rather than one of the standard flyers that often come from fly by night operations. I did a little research to ensure that Dent-picks was an established business in the area and wouldn't disappear (along with my "lifetime" warranty) before obtaining their services. They drove out to Arlington from Plano, met with me, then took my car themselves leaving me a loaner so I wouldn't be without. They kept in contact and returned every query I sent in a timely fashion. Once the work was finally approved by Insurance they were going to get me my car by June 1st. This was bad for me as I intended to car shop on May 31st and I asked if there was any way they could speed it up and complete by then. I got a call the morning of the 31st stating my car was finished. It looked amazing! That's what you call 5 star professional service. Thank you!

Nayeli and Paul were right on time. I appreciate the door service marketing and how seamless they made the process. They were not pushy at all! Genuinely connected with us and were patient with our questions and concerns. We had two cars with hail damage (quite a bit) and they coordinated with our insurance car rental coverages. They went above and beyond with pick ups and drop offs exchanges so that we didn't have to commute far and worked with our schedules. They were accessible and responsive throughout the process to keep us informed. We received our cars fully repaired and are greatly satisfied with the outcome. Excellent customer service and quality work provided! I will use them again and recommend their services! Bonus: ask about their referral plan! This was an unexpected incentive we were able to take advantage up.

They did an awesome job fixing the hail damage to my car they even went over and beyond by removing the dents on the doors of my car. My insurance didn't include a rental car they gave me a loaner car for free until the day my car was ready and it was delivered to my apartment. Finally, they waived my deductible this completely blew me away. I strongly recommend this company to anyone seeking to fix dents and hail damage to their vehicle!!!

Paul at Dent-Picks was awesome helping me get the hail-damage on my car repaired with little-no interruption of my normal day-day activities. They helped with filing the insurance claim, provided a loaner-car for me to use, and got the repairs done in a timely fashion. I highly recommend them to anyone that needs hail-repairs.

By far the best and EASIEST experience I've had with an auto repair shop in my 20 yrs of driving. Rocco was amazing! Very professional and courteous and kept me informed every step of the way. They offered a loaner vehicle and picked up AND brought back my truck looking as good as it did when I first bought it. Not only did they handle the all repairs amazingly, but also took care of all of the insurance paperwork as well. To top it off they brought my truck back detailed better than what I've paid an arm and a leg for at a carwash...my son said it looked and smelled like a new car. Will be recommending and doing all of my business with them in the future. Thanks again!

They did an excellent job repairing hail damage on my car. Took care of insurance and everything. Plus they picked up and dropped off my vehicle at home, since I live in Arlington, saving me the lengthy drive. Highly recommend!

I had a car and a truck that got damaged in the same hail storm. Dentpicks is 30 miles from me but I was very impressed with Rocco's presentation on what they could do for us and I took the truck there as an audition for the car. They knocked it out of the park on the truck so we took the car there too and got the same results. They offered to deliver a rental car and take the vehicles with no hassle on my part, but I opted to drive up there and take a look at the shop and meet the owner. It was clean and professional. This company is hungry to show you great service and they work hard to make you happy. My insurance company wanted me to select a shop from their preferred list but I went with Dentpicks and it turns out my insurance company was already well acquainted with them. Rocco is a highly experienced and skilled representative to interface with your insurance company and he will talk it all through with you step by step. The owner (Vytas) stopped what he was doing and came out to discuss our repairs with us every time we went there. I highly recommend this shop for ease of navigating the insurance pieces and for high quality repairs. I feel like they dealt fairly with me and I never felt like they were trying to up-sale me on any of it, but they readily talked about other issues that needed attention on the car when I asked them about them. This is a great shop that turned our vehicles around quickly and I will use them again.

We just got our car back from Dentpicks, and they did a fantastic job! We had over 3K worth of damages from a recent hailstorm and they did a great job taking care of all the damages, and even detailed our vehicle. Our car now looks exactly like the day we bought it. I would recommend Dentpicks to anyone. Both Kyle and Vytas were very helpful and kept up great communication throughout the repair process. They even lent us a brand new 2020 Corolla to drive while our car was in the shop. I give Dentpicks two thumbs up and a 5 star rating.
